

At Home Craft Activities

Windsock

You'll need:

Blue construction paper

Tape or glue

Scissors

Crayons, colored pencils or markers

Crepe paper

Yarn

Instructions for windsock

1. To create the streamers on the windsock glue one end of the crepe paper to the blue construction paper along the long edge without the holes.
2. Bend the blue construction paper into a cylinder shape and connect the ends together with either glue or tape.
3. Using the string provided, create a handle by threading the string through both holes on the blue construction paper and tie the ends of the string together to secure.
4. Cut out your cloud and tape it to the windsock. If you would like you can leave your cloud blank or draw a face on it.
